NatureMapping Workshop and Winter Bird Inventory (2/25/06)

Birds:

American crow
 American goldfinch
 American robin
 Black-capped chickadee
 Brown creeper
 Chestnut-backed chickadee
 Dark-eyed junco
 European starling
 Golden-crowned kinglet
 Hermit thrush
 House finch
 House sparrow
 Northern flicker
 Pileated woodpecker (*)
 Pine siskin
 Purple finch
 Red-breasted sapsucker
 Ruby-crowned kinglet
 Song sparrow
 Spotted towhee (Rufous-sided)
 Steller's jay
 Townsend's warbler
 Winter wren

Mammals:

Raccoon

Invertebrates:

Freshwater mussel

(*) – Washington Wildlife
 Habitat Plan species
 recommended for
 monitoring

Plants:

Blackberry (non-native)
 Buttercup
 Cascara
 Cedar
 Deer fern
 Douglas fir
 Hemlock
 Holly (non-native)
 Horsetail
 Licorice fern
 Oregon grape
 Red alder
 Red huckleberry
 Salal
 Salmonberry
 Skunk cabbage
 Sword fern

Common garter snake ⁽¹⁾	X				
<i>Northwestern garter snake</i>	X				
Northern alligator lizard					
Painted turtle					
Rubber boa					
Western terrestrial garter snake					
<u>FISH</u>					
<i>Coho salmon</i>	X				
<i>Pumpkinseed</i>	X				
<i>Rainbow trout</i>	X				

Footnote:

(1) - Trigger Species - Species that needed additional mapped land cover units to ensure representation within the network

(2) - At-Risk - Washington Gap Analysis Project (WAGAP) selected species considered to be most at risk of continued or future population declines due to human activities

(3) - Listed (State or Federal) - Species listed as State endangered, threatened, sensitive, candidate or monitor, as well as species listed or proposed for listing by the U.S. Fish and Wildlife Service

(4) - PHS - a species defined as priority under the WDFW Priority Habitats and Species (PHS) Program

(5) - Included based on species significance under the WDFW PHS/Heritage database, although not predicted to occur

(6) - Washington Comprehensive Wildlife Conservation Strategy (2005) species recommended for monitoring

Note: Species seen but not predicted are italicized
